Independent Auditor's Report

Board of Trustees School District of Edgefield County Edgefield, South Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the School District of Edgefield County (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedule – general fund, the schedule of the District's proportionate share of the net pension liability, and the schedule of the District's contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial schedules and other supplementary information, including the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial schedules and other supplementary information, including the schedule of expenditures of federal awards, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Manley Gawin, LLC

Greenwood, South Carolina November 20, 2017

INTRODUCTION

This discussion and analysis of the District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2017.

FINANCIAL HIGHLIGHTS

The Base Student Cost (BSC), is the main source of state funding. The District's 2016-2017 general fund budget was built based on a BSC of \$2,350. This was an increase from \$2,197 in 2015-2016. Although the maximum allowed millage increase was 10.61 mills (9.94 banked from the prior years and .67 mills for 16-17), the Board only raised the millage by 3.5 mills for the 2016-2017 school year. No dollars from the District's reserves were used as a funding source to balance the budget. Edgefield County Schools' net position increased \$231,000 during the fiscal year. The District's liabilities exceeded its assets at June 30, 2017 by \$21.3 million.

The budget increased from \$ 27,837,129 in 2015-16 to \$29,265,404 in 2016-17 primarily because of a step increase for all employees, a 2% increase for teachers, a mandated Year 23 Step added to the scale, and a 1% cost of living increase to the classified scale. The State Health Plan employer cost increased 4.5% and retirement increased .84%. Another increase came from a transfer of \$245,000 in salaries and benefits into the general fund for instructional coaches due to the end of the TAP grant. The District's general fund budget also absorbed \$206,747 in IDEA expenses. Despite conservation of general funds, the District was able to continue to deliver quality educational services to all students and maintain favorable student to teacher ratios in the current year.

OVERVIEW OF FINANCIAL STATEMENTS

This annual report consists of a series of financial statements and accompanying notes. These statements are organized so the reader can understand Edgefield County Schools as a financial whole, or as an entire operating entity.

The statement of net position and statement of activities provide information about the activities of the whole school district, presenting both an aggregate view and a longer-term view of our finances. Fund financial statements provide the next level of detail. For government funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in a single column.

Statement of Net Position and Statement of Activities - One of the most important questions asked about the District's finances is, "is the District better or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a manner that helps to answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by the private sector. All of the current year's revenues and expenses are taken into consideration, regardless of when cash is received or paid.

These two statements report the District's net position and changes in them. The change in net position provides the reader a tool to assist in determining whether the District's health is improving or deteriorating. The reader will need to consider property tax laws, funding issues, student enrollment growth or decline, facility conditions and other economic factors in arriving at their conclusion regarding the overall health of the District.

School District of Edgefield County Management's Discussion and Analysis (MD&A) Fiscal Year ended June 30, 2017

Fund Financial Statements - The fund financial statements provide detailed information about the most significant funds, not the District as a whole. Some funds are required to be established by State or Federal statute, while many other funds are established by the District to help manage money for particular purposes and compliance with various grant provisions. The District's three types of funds, governmental, fiduciary and proprietary, use different accounting approaches as further describer in the notes to the financial statements.

Governmental Funds - Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide for a short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or less financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between the governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the basic financial statements.

Fiduciary Funds - The District is the trustee, or fiduciary, for its scholarship program and the other items listed as private purpose trusts. It is also responsible for other assets that, due to a trust agreement, can be used only for the trust beneficiaries. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position. We exclude these activities from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Proprietary Funds - Proprietary Funds are used to present financial information about the activities within the organization that operate those funds like a business such as the Food Service program.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Edgefield County Schools' net position increased approximately \$231 thousand during the fiscal year. The District's liabilities exceeded its assets at June 30, 2017, by \$21.3 million.

By far the largest portion of the District's total assets reflects its investment in capital assets (e.g., land, buildings and improvements, vehicles, furniture and equipment). The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's net position invested in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District's financial position is the product of several financial transactions including the net results of operating activities, the acquisition and payment of debt and the acquisition and disposal of capital assets.

School District of Edgefield County Management's Discussion and Analysis (MD&A) Fiscal Year ended June 30, 2017

The following table presents a comparative summary of the District's net position for the fiscal year ended June 30, 2017 and 2016.

Comparative information for 2017 and 2016 Statement of Activities is presented in the chart below. The chart shows that in spite of the suppressed funding levels in 2016-2017, the primary mission of the school district was preserved (classroom instruction). 58.1% of District resources went directly into classrooms at our schools (not including instructional support functions).

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$4,901,796, an increase of \$180,589. 100% of general fund balance constitutes unassigned fund balance, which is available for spending at the District's discretion. The administration intends to maintain this balance in order to be assured District operations continue to run smoothly despite unexpected budget cuts and the SDE's failure to make payments in a timely manner, both serious issues in recent years.

The remaining fund balance is nonspendable, restricted, or committed, which indicates that it is not available for spending because it has already been restricted/committed as follows:

• Restricted for debt service - \$810,794

The general fund is the principal operating fund of the District. As the table below illustrates, the largest portions of the general fund expenditures each year are for salary and fringe benefits. 83.40% of the 2016-2017 budget (and portions of other fund transfers accounted for here under miscellaneous) was expended for staffing in the District.

		Fiscal Year 2017	2017 % of <u>Actual</u>	 Fiscal Year 2016
Expenditures by Object				
Salaries and Wages	\$	18,075,631	60.5%	\$ 16,761,241
Fringe Benefits		6,831,288	22.9%	6,252,385
Purchased Services		1,899,683	6.4%	1,877,365
Supplies		1,805,477	6.0%	1,655,350
Capital Outlay		1,021,464	3.4%	185,414
Miscellaneous		245,314	0.8%	 253,129
	<u>\$</u>	29,878,857	100.00%	\$ 26,984,884

Fiduciary funds are used to account for operations that are financial and operated in as a trust. The pupil activity fund is the only fiduciary fund. This fund had revenues in excess of expenditures of \$48,432 and assets totaling \$828,268.

Proprietary funds are used to account for funds that the District operates like a business. The Food Service operation is the only proprietary fund that the District operates. The fund had an end of year net deficit of \$1,926,341.

BUDGETARY HIGHLIGHTS

Over the course of the year, the District's General Fund expenditure and revenue budgets both traditionally increase slightly over the prior year operations, all things constant, if for no other reason than mandated salary and benefit increases. The District continues to employ strict cost control measures and takes a conservative approach to budgeted revenues in order to combat state funding levels that are comparable to the late 1990s.

A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in the fund financial statements of this report.

CAPITAL ASSETS

As of June 30, 2017, the District had invested a net amount of \$20,364,502 in governmental capital assets, including school buildings, athletic facilities, buses, vehicles, computers and other equipment. Total depreciation expense for the year was \$1,454,190. Accumulated depreciation is \$27,303,095.

The detailed schedule for 2017 and more information can be located in Note 4 of the notes to the financial statements.

DEBT ADMINISTRATION

At year-end, the District had \$6,228,993 in general obligation bonds and other long-term obligations outstanding, of which \$1,821,064 is due within one year. The following table presents a summary of the District's outstanding long-term debt for the fiscal year ended June 30, 2017.

Governmental activities	Principal outstanding June 30, 2016	Additions	Reductions	Principal outstanding June 30, 2017	Amounts due in one year
General obligation bonds					
February 1, 2008	\$ 3,190,000	\$-	\$ 1,570,000	\$ 1,620,000	\$ 1,620,000
August 14, 2012	4,455,000		130,000	4,325,000	135,000
Total bonds payable	7,645,000	-	1,700,000	5,945,000	1,755,000
Note payable	-	534,077	-	534,077	-
Unearned bond premiums	31,436	-	19,854	11,582	11,582
Accrued compensated absences	238,337	34,074		272,411	54,482
Total governmental activities	5				
general long-term debt	<u>\$ 7,914,773</u>	<u>\$ </u>	<u>\$ 1,719,854</u>	<u>\$ 6,763,070</u>	<u>\$ 1,821,064</u>

State statutes currently limit the amount of general obligation debt a District may issue to 8% of its total assessed valuation. The current remaining debt limitation for the District is approximately \$1,717,252. Additional information on the District's long-term debt can be found in Note 5 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The School District is coextensive with the area and boundaries of Edgefield County, which is located in the southwestern section of South Carolina. It has a land area of 481 square miles and is bordered to the north by Greenwood County, to the northeast by Saluda County, to the south by Aiken County and to the west by McCormick County. The population of Edgefield County, according to the 2010 Census, is 26,985.

School District of Edgefield County Management's Discussion and Analysis (MD&A) Fiscal Year ended June 30, 2017

In the 2016-2017 school year, the School District operated four elementary schools, two middle schools, one high school, and one career center. Kindergarten classes were available for all five-year-olds within the School District. Enrollment for the 2016-2017 school year was 3,339 average daily membership. For fiscal year 2016-2017, the School District employed approximately 242 certified staff and 252 other employees. Assessment rates show a stagnated growth pattern, but the local manufacturing economy has decreased as businesses have left the area. In addition, vehicle sales remain strong. The unemployment rate compares favorably with the state's rate and the county's top employers and taxpayers have shown stable operations.

Factors under consideration by the District's administration during the process of developing the fiscal year 2017-2018 budget were to address continued suppressed EFA Base Student Cost funding levels that compare to the mid 2000s, balance the budget without using money in the reserve fund, improve academic achievement and efforts to recruit and retain the most highly qualified instructional staff. Although state projections are at or above expectations, potential salary increases, increased health costs, increased retirement costs and continued cuts to Federal and State funds will continue to create a challenging budget outlook in 2017-2018.

The District's primary goal is to have a well-run instructional program in a financially sound environment. Conservative budgeting has permitted the School District to manage uncertain revenue sources in prior years without negatively impacting programs. Flexibility legislation and a sound fund balance have also eased the impact of unstable funding in prior years on the School District. However, there is no doElpubt the state implementation of Act 388, the overall state of the economy and increased health costs and state infrastructure needs, which compete with education funding, are to blame for the suppressed Base Student Cost funding levels. The majority of state revenues are now dependent upon sales tax collections as opposed to the more stable prior model of dependence on real estate taxes.

All the factors above were considered when adopting the budget for fiscal year 2017-2018. Anticipated budgeted expenditures in the General Fund for fiscal year 2017-2018 will be \$30,510,220. Although the maximum allowed millage increase was 9.71 mills (7.11 from the prior years that were banked plus 2.6 mills for the current year), The Board only raised millage 1.34 mills and approved this budget with 208.22 mills. Keeping tax increases to a minimum and balancing the budget without dipping into the reserve fund were two major considerations when the 2017-18 budget was created.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives. If you have questions about this report or need additional information, contact the Financial Services Office, Edgefield County School District, 425 Lee Street, Johnston, South Carolina 29832, (Telephone # 803-275-1122).

Exhibit 6 - Reconciliation of Statement of Revenues, Expenditures and Changes in Fund Bal Governmental Funds to the Statement of Activities	ances	ој	
For the fiscal year ended June 30, 2017			
otal net change in fund balance - governmental funds		\$	180,58
Amounts reported for governmental activities in the Statement of			
activities are different because of the following:			
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Details supporting this adjustment are as follows:			
Capital outlay	\$	1,184,125	
Depreciation expense		(1,454,190)	(270,06
Proceeds from debt provide current financial resources to governmental funds; however, issuing debt increases long-term liabilities in the statement of net position. In the current period, proceeds were received from:			(=)
Proceeds from bonds			(137,00
Proceeds from notes			(534,07
Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.			
Bond principal retirement			1,837,00
Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered "available revenues" and are unavailable in the governmental funds. Unavailable tax revenues changed by this amount this year.			(180,38
Governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.			
Amortization of bond premiums			19,85
In the Statement of Activities, certain operating expenses - compensated absences (annual leave), and other post employment benefits - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).			
Compensated absences			(34,07
Activity related to deferred outflows and inflows of resources related to pension is not recorded at the fund level but is included in the Statement of Activities:			
Deferred outflows related to pension Deferred inflows related to pension			3,224,30 (437,29
The change in net pension liability in the current fiscal year is not included on the Statement of Activities.			(3,735,26
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of			
when it is due.			21,91

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The School District of Edgefield County (the District) is governed by a seven member board of education (the Board). The District provides regular and exceptional education for students in kindergarten through grade twelve.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District has elected not to apply Financial Accounting Standards Board (FASB) statements and interpretations issued after November 30, 1989, to its governmental and business-type activities and to its proprietary funds. The following is a summary of the more significant policies.

A. Reporting Entity

The District's financial statements include all funds over which the Board is considered to be financially accountable. The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities. However, the District is not included in any other governmental reporting entity because it does not meet the financial accountability criteria for inclusion established by governmental accounting standards. Board members have decision-making authority, the power to designate management, the ability to significantly influence operations and the primary accountability for fiscal matters. The District invests funds and receives property tax revenues through its relationship with Edgefield County.

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. The District has no component units.

B. Basis of Presentation

The statements of the District are presented as follows:

Government-wide financial statements - The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the District, except for fiduciary funds. For the most part, the effect of interfund activity has been removed from these statements. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in part by fees charged to external parties.

The government-wide statements are prepared using the economic resources management focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

B. Basis of Presentation, continued

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Depreciation expense has been allocated to individual functions in the governmental activities. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, including taxes, which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund financial statements - Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. The District has no non-major funds. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the Statement of Net Position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the District finances and meets cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the District's financial position and results of operations and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

C. Measurement Focus and Basis of Accounting

Fund accounting

The accounts of the District are organized and operated on the basis of funds during the fiscal year, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts. The various funds are grouped into the categories governmental, proprietary, and fiduciary.

C. Measurement Focus and Basis of Accounting, Continued

Governmental Funds

Governmental funds are used to account for all or most of a District's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general capital assets (school building fund), and the servicing of general long-term debt (debt retirement fund).

General Fund - to account for all financial transactions not properly accounted for in another fund. The District uses this fund to account for expenditures principally for administration, instruction, pupil services, operation, and maintenance of plant and related fixed charges.

Special Revenue Funds - to account for the proceeds of specific revenue sources (other than debt service or major capital projects) that are restricted to expenditures for specified purposes. The District has two special revenue funds:

- 1. The Education Improvement Act (EIA) Fund, a budgeted fund used to account for the revenue from the Education Improvement Act of 1984 and legally required to be accounted for as a specific revenue source.
- 2. Special Revenue Other, a budgeted fund used to account for financial resources provided by federal, state, and local projects and grants.

Capital Projects (Building) Fund - to account for financial resources that are restricted, committed, or assigned to expenditures for capital outlays.

Debt Service Fund - to account for financial resources that are restricted, committed, or assigned to expenditures for principal and interest payments.

Proprietary Funds

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to provide sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds). The District has no internal service funds.

Within proprietary funds, operating revenues and expenses are presented in the Statement of Revenue, Expenses and Changes in Net Position. Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. Sales for food service represent the operating revenues of the District's proprietary fund. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Enterprise Funds - to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or covered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenue earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. The Food Service Fund is the District's only enterprise fund and is used to account for the United States Department of Agriculture (USDA) approved school breakfast and lunch programs.

C. Measurement Focus and Basis of Accounting, Continued

Fiduciary Funds

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government. The District's fiduciary funds consist of agency funds which are custodial in nature and do not involve measurement of results of operation. The agency funds are used to account for amounts held for student activity organizations and scholarships.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized when incurred. Under the modified accrual basis of accounting, revenues and expenditures are recognized when they become both measurable and available/due.

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized. Under the modified accrual basis, the following revenue sources associated with the current fiscal period are considered to be both measurable and available at fiscal year-end: property taxes, interest, tuition, grants, student fees and rentals.

Unavailable revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Delinquent property taxes and property taxes for which there is an enforceable legal claim as of June 30, 2017, but which have not met the revenue recognition criteria, have been recorded as unavailable revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as unavailable revenue. On governmental fund financial statements, receivables that will not be collected within the available period (60 days) have also been reported as unavailable revenue.

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue.

C. Measurement Focus and Basis of Accounting, Continued

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

D. Assets, Liabilities, and Equity or Net Position

Cash and Cash Equivalents and Investments

The District's investments are carried at fair value, except that repurchase agreements and U.S. Government Agencies that have a maturity at the time of purchase of one year or less are shown at amortized cost. The District's cash consists of cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. On fund financial statements, these receivables and payables are classified as "due from other funds" or "due to other funds." These amounts are eliminated in the governmental and business-type activities columns of the Statement of Net Position, except for net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Inventories

Under the system of accounting for inventories, materials and supplies are carried in an inventory account at cost using the first-in, first-out method of accounting and are subsequently charged to expense when consumed. Inventories include food, supplies, and commodities. An amount for commodities received from the USDA, but not consumed as of June 30, 2017, has been recorded at fair value as provided by the USDA.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the enterprise fund. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position but are not reported in the fund financial statements. Capital assets utilized by the enterprise fund are reported both in the business-type activities column of the government-wide statement of net position and in the respective fund.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The cost and accumulated depreciation of property sold or retired are removed from the accounts, and gains or losses, if any, are reflected in revenue or expenditures/expenses for the year. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed.

In the enterprise fund, assets acquired or constructed by grants and shared revenues externally restricted for capital acquisitions and construction are reported as revenue in the period received in accordance with GASB Statement No. 33.

D. Assets, Liabilities, and Equity or Net Position, Continued

With the exception of land and construction in progress, all reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental activities estimated lives	Business-type activities estimated lives
Land improvements	15 - 40 years	N/A
Buildings and improvements	15 - 50 years	20 years
Furniture and equipment	5 - 20 years	3 - 12 years
Vehicles	5 - 10 years	6 years

Compensated Absences

Compensated absences are absences for which employees will be paid, such as vacation leave. A liability for compensated absences is reported on the government-wide financial statements.

In the governmental fund financial statements, the current portion of compensated absences is the amount expected to be paid using expendable available financial resources and is reported as an expenditure and fund liability in the fund that will pay it. The remainder of the compensated absences liability is not reported. In the proprietary fund, compensated absences are recorded as an expense and liability.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

Bond premiums and discounts are deferred and amortized over the life of the bonds, using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

For governmental funds, bond premiums and discounts, as well as issuance costs, are recognized during the current period. Bond proceeds are reported as other financing source net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

D. Assets, Liabilities, and Equity or Net Position, Continued

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the South Carolina Retirement System (SCRS) and additions to/deductions from SCRS's fiduciary net position have been determined on the same basis as they are reported by SCRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so, will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so, will not be recognized as an inflow of resources (revenue) until then.

Fund Balances and Net Position

This Statement defines five classifications of governmental funds balances: nonspendable, restricted, committed, assigned, and unassigned. Where applicable, these classifications are presented on the face of the governmental fund balance sheet.

For the government-wide financial statements, the District applies restricted resources when an expenditure is incurred for the purposes for which both restricted and unrestricted net position are available. For the governmental funds financial statements, the District applies committed, then assigned, then unassigned resources when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

D. Assets, Liabilities, and Equity or Net Position, Continued

Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Transfers between governmental funds and enterprise balances are eliminated.

Exchange transactions between funds are reported as revenue in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

The budgetary data reflected in the financial statements is prepared and adopted on a basis consistent with accounting principles generally accepted in the United States of America. The following procedures are used in establishing budgetary data:

- The Superintendent submits a proposed budget to the District Board of Education prior to May 1 each year.
- Taxpayers are given the opportunity to comment on the proposed budget in regular open Board meetings.
- The budget is legally adopted prior to June 30.
- Amendments are made during the year as approved by the Board of Education.
- Budgets for certain special revenue funds are adopted through submission and subsequent approval of a project application to the appropriate authorizing agency.
- Budgets are not adopted for the debt service fund or the building fund.
- The budget is used as a management control device during the year for the general and special revenue funds.

Encumbrances represent uncompleted purchase orders, contracts and other commitments outstanding at year end. The District's encumbrances lapse at year end.

III. DETAILED NOTES ON ALL FUNDS

NOTE 1 - DEPOSITS, AMOUNTS ON DEPOSIT WITH EDGEFIELD COUNTY TREASURER AND INVESTMENTS

The District is authorized by South Carolina state law to invest in the following types of investments:

- 1. Obligations of the United States and agencies thereof.
- 2. General obligations of the State of South Carolina or any of its political units.
- 3. Banks and savings and loan associations to the extent they are guaranteed by the Federal Deposit Insurance Corporation.
- 4. Deposits in certificates of deposit where the certificates are collaterally secured by securities of the type described in (1) and (2) above held by a third party as escrow agent or custodian, of a market value not less than the amount of the certificate of deposit so secured, including interest.

III. DETAILED NOTES ON ALL FUNDS - (Continued)

NOTE 1 - DEPOSITS, AMOUNTS ON DEPOSIT WITH EDGEFIELD COUNTY TREASURER AND INVESTMENTS - (Continued)

- 5. The State Treasurer's Local Government Investment Pool (monitored by the State Treasurer for investments invested in government-guaranteed securities in accordance with South Carolina State laws).
- 6. Repurchase agreements.

Custodial Credit Risk - Custodial credit risk is the risk that the District's deposits will not be returned to it. The District has no formal policy regarding custodial credit risk. At June 30, 2017, the carrying amount of the District's deposits was \$2,810,468 and the bank balance was \$3,068,288. At June 30, 2017, all of the District's deposits were collateralized with securities held by the pledging financial institution's trust department or its agent, and in the District's name or insured by the Federal Deposit Insurance Corporation. Management believes there is no significant custodial risk associated with these deposits. Information was not available regarding the custodial credit risk of deposits with the Edgefield County Treasurer of \$1,363,374.

At June 30, 2017, the District had the following investments:

Investment	Maturity	F	Fair value		
Local government investment pool	Various	\$	5,156,613		
Merrill Lynch Mutual Funds (Pupil Activity Fund					
Scholarship investments)	Various		238,214		
First Citizens – Certificates of deposit	Various		11,797		
		\$	5,406,624		

<u>Credit Risk</u> - South Carolina statutes authorize investments in certificates of deposit, savings accounts, repurchase agreements, the State Treasurer's Local Government Investment Pool, obligations of the U.S. Government and government agencies unconditionally guaranteed by the U.S. Government. The District has no investment policy that would further restrict its choices.

The Local Government Investment Pool (LGIP) is not rated. The fair value of the District's position in the LGIP approximates the same value of the District's shares. Further information may be obtained from the LGIP's complete financial statements. These financial statements may be obtained by writing to the following address:

Office of the State Treasurer Local Governmental Investment Pool Post Office Box 11778 Columbia, South Carolina 29211

Interest Rate Risk - The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

<u>Concentration of Credit Risk</u> - Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District places no limit on the amount that may be invested in one issuer.

III. DETAILED NOTES ON ALL FUNDS - (Continued)

NOTE 1 - DEPOSITS, AMOUNTS ON DEPOSIT WITH EDGEFIELD COUNTY TREASURER AND INVESTMENTS - (Continued)

A reconciliation of cash and investments as shown on the Statement of Net Position for the primary government and the Statement of Fiduciary Assets and Liabilities follows:

Deposits	\$	2,810,468
Investments		5,406,624
	<u>\$</u>	8,217,092
Statement of Net Position	\$	7,389,664
Statement of Fiduciary Assets and Liabilities		827,428
	\$	8,217,092

Amounts on Deposit with Edgefield County Treasurer

Amounts on deposit with the Edgefield County Treasurer are not categorized since they cannot be identified by securities that exist in physical or book entry form. These amounts are subject to the same investment authorizations as the District under state law. The carrying values of these investments approximate the fair values. The Edgefield County Treasurer is responsible for maintaining these investments in accordance with state laws.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District's recurring fair value measurements as of June 30, 2017 for the investments are valued using quoted market prices (Level 1 inputs).

NOTE 2 - PROPERTY TAXES

Assessed valuation of taxable property for 2016 for the District was approximately \$75,500,000. The tax rate for the District totaled 232.72 mills, of which 208.22 mills were for the general fund and 24.50 mills were for the debt service fund. Taxes receivable of \$553,079 in the general fund and \$90,170 in the debt service fund are net of an allowance for uncollectible taxes.

Property taxes are collected for the District by the Edgefield County Treasurer.

The District's property tax is levied on the assessed value listed as of January 1 for all real and business personal property located in the District's geographical area. Liens attach to the property at the time taxes are levied. Taxes are due without penalty, for real and personal property excluding automobiles, through January 15. After that time, penalties are added depending on the date paid as follows:

January 15 through February 1	3% of tax
February 2 through March 15	10% of tax
March 16 and thereafter	15% of tax

South Carolina Code Section 12-37-251(A) provides a property tax exemption for property classified pursuant to Section 12-43-220(C) (homestead exemption) from property taxes levied for other than bonded indebtedness and payments pursuant to lease purchase agreements for capital construction. The exemption applies against millage imposed for school operations and the amount of fair market value of the homestead that is exempt from such millage must be set by the Department of Revenue and Taxation based on the amount available in the State Property Tax Relief Fund.

School District of Edgefield County Notes to Financial Statements June 30, 2017

III. DETAILED NOTES ON ALL FUNDS - (Continued)

NOTE 3 - RECEIVABLES

Intergovernmental receivables at June 30, 2017 consisted of taxes, intergovernmental grants, reimbursements and interest. All intergovernmental receivables are considered collectible in full.

A summary of the principal items of intergovernmental receivables follows:

Governmental activities	
Due from state and/or federal government	
General fund	
Tier 3 tax reimbursement	\$ 322,795
Clean energy grant	348,367
EIA	83,409
Special projects	
Title I	350,462
IDEA	341,902
Preschool handicapped	4,792
Adult education	27,497
Other special revenue programs	252,076
Food service fund	14,404
Total governmental activities	<u>\$ 1,745,704</u>

Receivables for property taxes are reported net of the allowance for uncollectible accounts. Governmental funds report unavailable revenue (deferred inflows of resources) in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. At June 30, 2017, unavailable revenue related to property taxes reported in the governmental funds totaled \$553,079 and \$90,163 in the general and debt service funds, respectively.

NOTE 4 - CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2017 was as follows:

	Balance June 30, 2016	Additions/ Transfers	Deletions/ Transfers	Balance June 30, 2017
Governmental activities				
Capital assets, not being depreciated				
Land	\$ 422,103	\$-	\$-	\$ 422,103

III. DETAILED NOTES ON ALL FUNDS - (Continued)

	Balance June 30, 2016		Additions/ Transfers		Deletions/ Transfers		Balance June 30, 2017	
Business-type activities								
Equipment	\$	361,247	\$	11,859	\$	-	\$	373,106
Less accumulated depreciation		200,208		28,306		_		228,514
Business-type activities capital assets, net	\$	161,039	\$	(16,447)	<u>\$</u>		\$	144,592

During the year ended June 30, 2017, the District had depreciation expense of \$1,454,190 for governmental activities. This depreciation expense has been allocated to instruction, support services, and community services activities in the amounts of \$826,388, \$627,800 and \$2, respectively.

NOTE 5 - LONG-TERM DEBT

Changes in long-term obligations for the year ended June 30, 2017, were as follows:

	Principal outstanding June 30, 2016	Additions	Reductions	Principal outstanding June 30, 2017	Amounts due in one year
Governmental activities					
General obligation bonds					
February 1, 2008	\$ 3,190,000	\$-	\$ 1,570,000	\$ 1,620,000	\$ 1,620,000
August 14, 2012	4,455,000		130,000	4,325,000	135,000

School District of Edgefield County Notes to Financial Statements June 30, 2017

III. DETAILED NOTES ON ALL FUNDS - (Continued)

NOTE 5 - LONG-TERM DEBT - (Continued)

Article X, Section 15 of the Constitution of the State of South Carolina, as amended, empowers each School District of the State to incur general obligation debt in such manner and upon such terms and conditions, as the General Assembly shall prescribe by law. After November 30, 1982, each School District may incur general obligation debt, without an election and upon such terms and conditions as the General Assembly may prescribe, in an amount not exceeding 8% of the assessed value of all taxable property of such School District.

Bonded indebtedness existing on November 30, 1982, and bonded indebtedness authorized by a majority vote of the qualified electors of the District voting in a referendum will not be considered in the computation of the 8% limitation. As of June 30, 2017, the remaining debt margin available to the District was approximately \$1,717,252.

During the year ended June 30, 2017, the District entered into a \$623,090 loan with the SC ORS-Energy Office for the purpose of constructing a solar farm to power W.E. Parker Elementary. The note is due in 8 yearly installments of \$83,235 starting July 1, 2018, and ending on July 1, 2025. The note bears an annual rate of interest of 1.5%. As of June 30, 2017 the District had drawn \$534,077 from the loan proceeds. Subsequent to year end, the remaining balance of \$89,013 was drawn in October 2017.

The annual requirements to amortize the note payable including interest payments over the life of the debt are as follows:

_	Year Ended June 30	P	Principal		Interest		Total
	2018	\$		\$		\$	
	2019		73,888		9,347		83,235
	2020		74,997		8,238		83,235
	2021		76,122		7,113		83,235
	2022		77,264		5,971		83,235
	2023		78,423		4,812		83,235
	2024		79,599		3,636		83,235
	2025		80,793		2,442		83,235
	2026		82,004		1,230		83,234
		<u>\$</u>	623,090	<u>\$</u>	42,789	<u>\$</u>	665,879

NOTE 6 - SHORT TERM OBLIGATIONS

The District issued \$801,000 in tax anticipation notes, series 2016, in November 2016, with a coupon rate of 1.0%. The tax anticipation notes were repaid in January 2017, including interest incurred of \$10,814.

The District issued \$137,000 in general obligation bonds, series 2016D, on September 21, 2016, with a coupon rate of 2.00% to fund an equipment purchase. The bond matured on March 1, 2017.

Changes in short-term obligations for the year ended June 30, 2017, were as follows:

	Princip outstandir July 1, 20	ng	A	Additions	Re	eductions	Principal outstanding June 30, 2017		
Governmental activities									
Tax Anticipation Notes Series 2016	\$	-	\$	801,000	\$	801,000	\$	-	
General obligation bonds									
September 21, 2016				137,000		137,000		_	
Total	<u>\$</u>	_	\$	938,000	\$	938,000	<u>\$</u>		

III. DETAILED NOTES ON ALL FUNDS - (Continued)

NOTE 7 - TRANSFERS IN AND OUT/INTERFUND BALANCES

During the course of normal operations, the District has transactions between funds to provide services, construct assets, service debt, etc. These transactions are generally reflected as transfers. Total transfers during the year ended June 30, 2017, consisted of the following individual fund amounts:

	<u>1T </u>	ransfers In	<u> </u>	ansfers Out
General	\$	904,320	\$	776,000
Special projects		539,766		110,523
Education Improvement Act		110,000		793,797
Food service		126,234		-
	<u>\$</u>	1,680,320	\$	1,680,320

As of June 30, 2017, amounts due from (to) other funds related to the District's pooled cash are as follows:

	General fund		Special projects		Education Improvement Act		Capital Projects		Food service		Total
Due from general fund	\$-	\$	-	\$	477,821	\$	31	\$	118,955	\$	596,807

IV. OTHER INFORMATION

NOTE 8 – PENSION PLAN

Description of the Entity:

The South Carolina Public Employee Benefit Authority (PEBA), which was created July 1, 2012, administers the various retirement systems and retirement programs managed by its Retirement Division. PEBA has an 11-member Board of Directors, appointed by the Governor and General Assembly leadership, which serves as co-trustee and co-fiduciary of the systems and the trust funds. By law, the State Fiscal Accountability Authority (SFAA), which consists of five elected officials, also reviews certain PEBA Board decisions regarding the funding of the South Carolina Retirement Systems (Systems) and serves as a co-trustee of the Systems in conducting that review.

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Systems and additions to/deductions from the Systems fiduciary net position have been determined on the accrual basis of accounting as they are reported by the Systems in accordance with generally accepted accounting principles (GAAP). For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Benefit and refund expenses are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

IV. OTHER INFORMATION - (Continued)

NOTE 8 - PENSION PLAN - (Continued)

PEBA issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through the Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, retirement trust fund financial information is also included in the comprehensive annual financial report of the state.

Plan description:

The South Carolina Retirement System (SCRS), a cost–sharing multiple-employer defined benefit pension plan, was established effective July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement allowances and other benefits for employees of the state, its public school districts, and political subdivisions.

The State Optional Retirement Program (State ORP) is a defined contribution plan that is offered as an alternative to SCRS to certain newly hired state, public school, and higher education employees. State ORP participants direct the investment of their funds into a plan administered by one of four investment providers.

The South Carolina Police Officers Retirement System (PORS), a cost—sharing multiple-employer defined benefit pension plan, was established effective July 1, 1962, pursuant to the provisions of Section 9-11- 20 of the South Carolina Code of Laws for the purpose of providing retirement allowances and other benefits for police officers and firemen of the state and its political subdivisions.

Membership:

Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements under each system is presented below.

SCRS - Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

State ORP - As an alternative to membership in SCRS, newly hired state, public school, and higher education employees and individuals newly elected to the S.C. General Assembly beginning with the November 2012 general election have the option to participate in the State Optional Retirement Program (State ORP), which is a defined contribution plan. State ORP participants direct the investment of their funds into a plan administered by one of four investment providers. PEBA assumes no liability for State ORP benefits. Rather, the benefits are the liability of the investment providers. For this reason, State ORP programs are not part of the retirement systems' trust funds for financial statement purposes. Employee and Employer contributions to the State ORP are at the same rates as SCRS. A direct remittance is required from the employers to the member's account with investment providers for the employee contribution and a portion of the employer contribution (5 percent). A direct remittance is also required to SCRS for the remaining portion of the employer contribution and an incidental death benefit contribution, if applicable, which is retained by SCRS.

IV. OTHER INFORMATION - (Continued)

NOTE 8 - PENSION PLAN - (Continued)

PORS - To be eligible for PORS membership, an employee must be required by the terms of his employment, by election or appointment, to preserve public order, protect life and property, and detect crimes in the state; to prevent and control property destruction by fire; or to serve as a peace officer employed by the Department of Corrections, the Department of Juvenile Justice, or the Department of Mental Health. Probate judges and coroners may elect membership in PORS. Magistrates are required to participate in PORS for service as a magistrate. PORS members, other than magistrates and probate judges, must also earn at least \$2,000 per year and devote at least 1,600 hours per year to this work, unless exempted by statute. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

Benefits:

Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation. A brief summary of benefit terms for each system is presented below.

SCRS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years. Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

PORS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 55 or with 25 years of service regardless of age. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension at age 55 or with 27 years of service regardless of age. Both Class Two and Class Three members are eligible to receive a deferred annuity at age 55 with five or eight years of earned service, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Accidental death benefits are also provided upon the death of an active member working for a covered employer whose death was a natural and proximate result of an injury incurred while in the performance of duty.

The retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase.

IV. OTHER INFORMATION - (Continued)

NOTE 8 - PENSION PLAN - (Continued)

Contributions:

Contributions are prescribed in Title 9 of the South Carolina Code of Laws. Upon recommendation by the actuary in the annual actuarial valuation, the PEBA Board may adopt and present to the SFAA for approval an increase in the SCRS and PORS employer and employee contribution rates, but any such increase may not result in a differential between the employee and total employer contribution rate that exceeds 2.9 percent of earnable compensation for SCRS and 5 percent for PORS. An increase in the contribution rates adopted by the Board may not provide for an increase of more than one-half of one percent in any one year. If the scheduled employee and employer contributions provided in statute or the rates last adopted by the Board are insufficient to maintain a thirty year amortization schedule of the unfunded liabilities of the plans, the Board shall increase the contribution rates in equal percentage amounts for the employer and employee as necessary to maintain the thirty-year amortization period; and, this increase is not limited to one-half of one percent per year.

Required <u>employee</u> contribution rates¹ are as follows:

Fiscal Year 2017	Fiscal Year 2016
8.66%	8.16%
8.66%	8.16%
8.66%	8.16%
9.24%	8.74%
9.24%	8.74%
	8.66% 8.66% 9.24%

Required <u>employer</u> contribution rates¹ are as follows:

	Fiscal Year 2017	Fiscal Year 2016
SCRS		
Employer Class Two	11.41%	10.91%
Employer Class Three	11.41%	10.91%
Employer Incidental Death Benefit	0.15%	0.15%
State ORP		
Employer Contribution ²	11.41%	10.91%
Employer Incidental Death Benefit	0.15%	0.15%
PORS		
Employer Class Two	13.84%	13.34%
Employer Class Three	13.84%	13.34%
Employer Incidental Death Benefit	0.20%	0.20%
Employer Accidental Death Program	0.20%	0.20%

¹Calculated on earnable compensation as defined in Title 9 of the South Carolina Code of Laws.

² Of this employer contribution, 5% of earnable compensation must be remitted by the employer directly to the ORP vendor to be allocated to the member's account with the remainder of the employer contribution remitted to the SCRS.

IV. OTHER INFORMATION - (Continued)

NOTE 8 - PENSION PLAN - (Continued)

Actuarial assumptions and methods:

Actuarial valuations involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Actuarial assumptions and methods used during the annual valuation process are subject to periodic revision, typically with an experience study, as actual results over an extended period of time are compared with past expectations and new estimates are made about the future.

South Carolina state statute requires that an actuarial experience study be completed at least once in each fiveyear period. An experience report on the Systems was most recently issued as of July 1, 2015. The June 30, 2016, total pension liability, net pension liability, and sensitivity information were determined by the Systems consulting actuary, Gabriel, Roeder, Smith and Company (GRS) and are based on the July 1, 2015, actuarial valuations, as adopted by the PEBA Board and SFAA which utilized membership data as of July 1, 2015. The total pension liability was rolled-forward from the valuation date to the Systems' fiscal year ended June 30, 2016, using generally accepted actuarial principles. Information included in the following schedules is based on the certification provided by GRS.

for SCRS and PORS.		
	SCRS	PORS
Actuarial cost method	Entry age normal	Entry age normal

The following provides a summary of the actuarial assumptions and methods used in the July 1, 2015, valuations for SCRS and PORS.

Actuarial cost method	Entry age normal	Entry age normal		
Investment rate of return ¹	7.5%	7.5%		
Projected salary increases	3.5% to 12.5% (varies by service) ¹	4.0% to 10.0% (varies by service) ¹		
Benefitadjustments	lesser of 1% or \$500 annually	lesser of 1% or \$500 annually		
¹ Includes inflation at 2.75%				

The post-retiree mortality assumption is dependent upon the member's job category and gender. This assumption includes base rates which are automatically adjusted for future improvement in mortality using published Scale AA projected from the year 2000. Assumptions used in the July 1, 2015, valuations for SCRS and PORS are as follows.

Former Job Class	Males	Females		
Educators	RP-2000 Males (with White Collar adjustment) multiplied by 110%	RP-2000 Females (with White Collar adjustment) multiplied by 95%		
General Employees and Members of the General Assembly	RP-2000 Males multiplied by 100%	RP-2000 Females multiplied by 90%		
Public Safety and Firefighters	RP-2000 Males (with Blue Collar adjustment) multiplied by 115%	RP-2000 Females (with Blue Collar adjustment) multiplied by 115%		

IV. OTHER INFORMATION - (Continued)

NOTE 8 - PENSION PLAN - (Continued)

Net pension liability:

The net pension liability (NPL) is calculated separately for each system and represents that particular system's total pension liability determined in accordance with GASB No. 67 less that System's fiduciary net position. NPL totals, as of June 30, 2016, for SCRS and PORS are presented below.

System	Total Pension Liability	Plan Fiduciary Net Position	Employers' Net Pension Liability	Plan Fiduciary Net Position as a Percentage of the Total Pension Liability
SCRS	\$ 45,356,214,752	\$ 23,996,362,354	\$ 21,359,852,398	52.9%
PORS	6,412,510,458	3,876,035,732	2,536,474,726	60.4%

The total pension liability is calculated by the Systems' actuary, and each plan's fiduciary net position is reported in the Systems' financial statements. The net pension liability is disclosed in accordance with the requirements of GASB 67 in the Systems' notes to the financial statements and required supplementary information. Liability calculations performed by the Systems' actuary for the purpose of satisfying the requirements of GASB Nos. 67 and 68 are not applicable for other purposes, such as determining the plans' funding requirements.

Long-term expected rate of return:

The long-term expected rate of return on pension plan investments, as used in the July 1, 2015, actuarial valuations, was based upon the 30 year capital markets outlook at the end of third quarter 2015. The long-term expected rate of returns represent assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. Expected returns are net of investment fees.

The expected returns, along with the expected inflation rate, form the basis for the revised target asset allocation adopted beginning January 1, 2016. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation and is summarized in the table below. For actuarial purposes, the 7.50 percent assumed annual investment rate of return used in the calculation of the total pension liability includes a 4.75 percent real rate of return and a 2.75 percent inflation component.

IV. OTHER INFORMATION - (Continued)

NOTE 8 - PENSION PLAN - (Continued)

Asset Class	Target Asset Allocation	Expected Arithmetic Real Rate of Return	Long Term Expected Portfolio Real Rate of Return
Global Equity	43.0%		
Global Public Equity	34.0%	6.52%	2.22%
Private Equity	9.0%	9.30%	0.84%

Private Debt	7.0%	4.47%	0.31%
Conservative Fixed Income	12.0%		
Core Fixed Income	10.0%	1.72%	0.17%
Cash and Short Duration (Net)	2.0%	0.71%	0.01%
Total Expected Real Return	100%		5.10%
Inflation for Actuarial Purposes			2.75%
Total Expected Nominal Return			7.85%

Discount rate:

The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that the funding policy specified in the South Carolina State Code of Laws will remain unchanged in future years. Based on those assumptions, each System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity analysis:

The following table presents the collective net pension liability of the District calculated using the discount rate of 7.50 percent, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is 1.00 percent lower (6.50 percent) or 1.00 percent higher (8.50 percent) than the current rate.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate						
1.00% Decrease Current Discount 1.00% Increase						
System	(6.50%)		Rate (7.50%)			(8.50%)
SCRS	\$	56,915,761	\$	45,624,858	\$	36,225,607

IV. OTHER INFORMATION - (Continued)

NOTE 8 - PENSION PLAN - (Continued)

Additional financial and Actuarial Information:

Detailed information regarding the fiduciary net position of the plans administered by PEBA is available in the Systems' audited financial statements for the fiscal year ended June 30, 2016 (including the unmodified audit opinion on the financial statements). Additional actuarial information is available in the accounting and financial reporting actuarial valuation as of June 30, 2016.

NOTE 9 – DEFERRED COMPENSATION PLAN

The District offers their employees a deferred compensation plan, created in accordance with Internal Revenue Code Section 457, which is administered and controlled by the State of South Carolina. The plan, available to all District employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

Great West Retirement Services - South Carolina Deferred Compensation Program, PO Box 173764, Denver, CO 80217-3764, (under state contract) is the program administrator of the 457 plan as well as the 401k plan, which is also available to District employees at their option.

NOTE 10 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description - In accordance with the South Carolina Code of Laws and the annual Appropriations Act, the State provides post-employment health and dental and long-term disability benefits to retired State and school district employees and their covered dependents. The District contributes to the Retiree Medical Plan (RMP) and the Long-term Disability Plan (LTDP), cost-sharing multiple-employer defined benefit postemployment healthcare and long-term disability plans administered by the Employee Insurance Program (EIP), a part of the State Budget and Control Board (SBCB). Generally, retirees are eligible for the health and dental benefits if they have established at least ten years of retirement service credit. For new hires May 2, 2008 and after, retirees are eligible for benefits if they have established twenty-five years of service for 100% employer funding and fifteen through twenty-four years of service for 50% employer funding. Benefits become effective when the former employee retires under a State retirement system. Basic long-term disability benefits (BLTD) are provided to active state, public school district and participating local government employees approved for disability.

Funding Policies - Section 1-11-710 and 1-11-720 of the South Carolina Code of Laws of 1976, as amended, requires these postemployment healthcare and long-term disability benefits be funded through annual appropriations by the General Assembly for active employees to the EIP and participating retirees to the SBCB except the portion funded through the pension surcharge and provided from other applicable sources of the EIP for its active employees who are not funded by state general fund appropriations. Employers participating in the RMP are mandated by State statute to contribute at a rate assessed each year by the Office of the State Budget. The current rate is 4.92% of annual covered payroll. The EIP sets the employer contribution rate based on a pay-as-you-go basis. The District paid approximately \$1,132,000, \$1,121,000 and \$1,046,000 applicable to the surcharge included with the employer contribution for retirement benefits for the fiscal years ended June 30, 2017, 2016 and 2015, respectively. BLTD benefits are funded through a per person premium charged to State agencies, public school districts, and other participating local governments. The monthly premium per active employee paid to EIP was \$3.22 for the fiscal years ended June 30, 2017, 2016 and 2015. The rate has since increased and is currently \$3.50.

IV. OTHER INFORMATION - (Continued)

NOTE 10 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS - (Continued)

Effective May 1, 2008, the State established two trust funds through Act 195 for the purpose of funding and accounting for the employer costs of retiree health and dental insurance benefits and long-term disability insurance benefits. The South Carolina Retiree Health Insurance Trust Fund is primarily funded through the payroll surcharge. Other sources of funding include additional State appropriated dollars, accumulated EIP reserves, and income generated from investments. The Long Term Disability Insurance Trust Fund is primarily funded through investment income and employer contributions.

One may obtain complete financial statements for the benefit plans and the trust funds from Employee Insurance Program, 1201 Main Street, Suite 360, Columbia, South Carolina 29201.

NOTE 11 - COMMITMENTS AND CONTINGENCIES

The District participates in a number of federally assisted programs, which are audited in accordance with the Single Audit Act Amendments of 1996. Audits have not resulted in any material disallowed costs, however, grantor agencies may conduct further examinations based on reported questioned costs. Based on prior experience, the District believes that further examinations would not result in any material disallowed costs.

From time to time, the District is a defendant in various lawsuits arising in the normal course of business. It is the opinion of the District's management, after conferring with legal counsel, that any liability, net of insurance coverage, which may arise from these lawsuits would not have a material adverse effect on the District's financial statements.

The District leases copiers under a non-cancelable operating lease expiring September 2019. The lease includes a per copy charge ranging from \$0.01757 to \$0.0065 per copy. During the year, total lease payments amounted to approximately \$123,000. Approximate remaining payments due under contracts in place at June 30, 2017, are as follows:

Year	Lea	se payment
2018	\$	123,000
2019		123,000
2020		31,000
	<u>\$</u>	277,000

NOTE 12 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the District carries state or commercial insurance. Management believes such coverage is sufficient to preclude any significant uninsured losses for the covered risks. The District has had no significant reduction in coverage due to settled claims. Settled claims have not exceeded this coverage in the past three years. The District pays insurance premiums to certain State agencies and commercial insurers to cover risks that may occur in normal operations. The insurers promise to pay to or on behalf of the insured for covered economic losses sustained during the policy period in accordance with insurance policy and benefit program limits. For property losses, the District's deductible is \$2,500.

IV. OTHER INFORMATION - (Continued)

NOTE 12 - RISK MANAGEMENT - (Continued)

The District pays premiums to HUB International Insurance which issues policies, accumulates assets to cover the risks of loss, and pays claims incurred for covered losses related to the following assets, activities, and/or events:

- 1. Theft of, damage to, or destruction of assets;
- 2. Real property, its contents, and other equipment;
- 3. Motor vehicles;
- 4. Torts; and
- 5. Natural disasters

HUB International Insurance is a self-insurer and purchases reinsurance to obtain certain services and specialized coverage and to limit losses in the areas of property, boiler and machinery, automobile liability, cyber liability, and School Board liability insurance. HUB International Insurance's rates are determined actuarially.

The District obtains coverage through a commercial insurer for employee fidelity bond insurance for all employees for losses arising from theft or misappropriation, up to a maximum of \$100,000. Management believes such coverage is sufficient to preclude any significant uninsured losses for the covered risks. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

Prior to July 1, 1978, school districts in South Carolina were exempt from unemployment tax. Legislation was enacted providing that, effective July 1, 1978, these employing units would no longer be excluded by the South Carolina Employment Security Commission (the Commission). In lieu of payment of contributions, the District, as permitted by the Act, elected to be "self-insured," whereby it would reimburse the Commission's unemployment fund for any claims attributable to service in the employ of the District. Payments of claims for reimbursement to the Commission are paid out of the general operating fund. Payments of \$0 were made by the District for this purpose during the current year.

NOTE 13 - FUND BALANCE AND NET POSITION

The fund balances/net position and other credits have been classified to reflect the limitations and restrictions placed on the respective funds as follows:

Governmental fund financial statements

<u>Fund balances - Nonspendable</u> – balances that by their nature are unable to be spent.

<u>Fund balances - Restricted</u> – balances that can only be spent for the specific purpose stipulated by constitution, external resources providers, or through enabling legislation.

<u>Fund balances - Committed</u> – balances that can only be used for the specific purpose determined by the District's Board of Trustees. The Board of Trustees must take a formal action during one of its meetings to commit fund balance.

<u>Fund balances - Assigned</u> – balances meant to be used for a specific purpose but that do not meet the criteria as restricted or committed. Senior management at the District may assign fund balance.

<u>Fund balances - Unassigned</u> – balances that are spendable amounts not contained in other classifications.

IV. OTHER INFORMATION - (Continued)

NOTE 13 - FUND BALANCE AND NET POSITION - (Continued)

Government-wide and proprietary fund financial statements

<u>Net Investment in capital assets</u> - represents the net cost less accumulated depreciation and outstanding debt attributable to the organization of the capital assets.

<u>Restricted net position</u> - represents net position restricted externally by creditors, grantors, contributors or laws and regulations of other governments; or restrictions imposed by law through constitutional provisions or enabling legislation.

<u>Unrestricted net position</u> - represents the remainder of the District's net position in the government-wide activities.

NOTE 14 - ARBITRAGE REBATE

In accordance with the provisions of Section 148(f) of the Internal Revenue Code of 1986, as amended, bonds must satisfy certain arbitrage rebate requirements. Positive arbitrage is the excess of (1) the amount earned on investments purchased with bond proceeds over (2) the amount of such investments would have earned had such investments been invested at a rate equal to the yield on the bond issue. In order to comply with the arbitrage rebate requirements, positive arbitrage must be paid to the U.S. Treasury at the end of each five year anniversary date of the bond issue. As of June 30, 2017, the District has determined that there are no amounts outstanding for arbitrage rebates.

Note 15 – Tax Abatement

The County provides tax abatements under one program: Fee-in-Lieu of Tax Program (FILOT).

The Fee-in-Lieu of Tax Program (FILOT) offers individual incentive packages by abating property taxes to attract new business to the County and to retain current businesses. The FILOT program was established by the SC Code Title 12, Chapter 44 and Title 4, Chapter 12. Generally, for taxpayers to be approved for this program they must agree to invest the statutory minimum (A higher amount may be negotiated) during the investment period. The investment period begins on the day in which the property described in the agreement is entered into service and ends at an agreed upon point in time. Once the investment period begins, the taxpayer may receive a reduction of assessed rate, reduction in millage rate and elimination of (or reduction in) the number of times the millage rates change for the property over the length of the agreement. Repayments of any savings in property taxes are required by state law if the taxpayer fails to maintain the conditions set forth in the agreement. Other recapture provisions may be negotiated on a case by case basis.

The District's property tax revenues were reduced by \$281,797 under agreements entered into by Edgefield County as of June 30, 2017.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Board of Trustees School District of Edgefield County Edgefield, South Carolina

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of School District of Edgefield County (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 20, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist and have not been identified. We did identify a deficiency in internal control (2017-001), described in the accompanying schedule of findings and questioned costs that we consider to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and is described in the accompanying schedule of findings and questioned costs as item 2017-002.

District's response to Findings

The District's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

Board of Trustees School District of Edgefield County Edgefield, South Carolina

Report on Compliance for Each Major Federal Program

We have audited the School District of Edgefield County's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2017-002. Our opinion on each major federal program is not modified with respect to this matter.

The District's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance possibility that material noncompliance with a type of compliance requirement of a federal program that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We identified a deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2017-002, which we consider to be a material weakness.

The District's response to the internal control over compliance finding identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on it.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

School District of Edgefield County Notes to Schedule of Expenditures of Federal Awards For the year ended June 30, 2017

A. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal grant activity of the District under programs of the federal government for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net assets or cash flows of the District.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

C. LOANS OUTSTANDING

The District had the following loan balances outstanding at June 30, 2017. Loans made during the year are included in the federal expenditures presented in the schedule.

Program Title State Energy Program Federal CFDA Number 81.041

School District of Edgefield County Schedule of Findings and Questioned Costs, Continued For the year ended June 30, 2017

Section II. Financial Statement Findings

2017 Financial Statement Findings 2017-001: Loan proceeds and related expenditures Condition: The District did not record the proceeds from a loan agreement in the appropriate other financing source account. Instead, the District netted the proceeds against the capital outlay related to the expenditure of the funds. Criteria: Proceeds from the issuance of a loan agreement should be reported as an other financing source. Expenditure of such funds should be recorded in the appropriate capital outlay account. Effect: Other financing sources and capital outlay were understated. Cause: The District's internal control over issuance of debt and recording of debt proceeds did not function to ensure proper recording and reporting for proceeds of issuance of the loan agreement. **Recommendation:** We recommend the District review its internal control procedures for issuance of debt and recording of debt proceeds to ensure proper recording and reporting under generally accepted accounting principles. **Response:** We agree with the recommendation and will review internal controls over issuance of debt and recording of debt proceeds to ensure all agreements are reviewed in detail to ensure proper recording and reporting under generally accepted accounting principles.
